

Speirs and Major Associates
Lighting Architects

Claudia Clements BA (Hons); Dip.Arch; MSc Light & Lighting
Design Associate

Claudia trained as an architect at Kingston University and has over twelve years experience of practice as an independent lighting designer.

After completing her studies Claudia joined Equation Lighting Design where she worked on a number of major projects concerned with both exterior and interior lighting. Projects included Upper Ground Urban Regeneration and Harvey Nichols, Oxo Restaurant in London. She joined Speirs and Major in 1998 and has worked on projects such as Bluewater: Europe's largest retail development, Millennium Dome; an exposition in Greenwich, and Magna; the Stirling Prize winning Science Adventure Centre in Rotherham.

In 2001 Claudia was awarded the MSc. Light and lighting from The Bartlett School, University College London. Recently completed projects include HM Treasury; a new government headquarters in London, the Stirling Prize winning 30 St. Mary Axe and Bath Spa.

Claudia has written articles for national and international professional magazines and lectured at the University of Brighton. Claudia became a Design Associate in 2002.
